POLICY NOTIFICATION

< "Shop Only" North Carolina Commissions >

This policy notice is being issued to clarify jurisdictional requirements regarding the issuance of "Shop Only" North Carolina (NC) Commissions.

- **In the past, the Boiler Safety Bureau (jurisdiction) has issued "Shop Only" NC Commissions to those inspectors who only perform ASME and National Board Repair/Alteration shop inspections in NC (with no in-service inspections).**
- **Effective this date, the jurisdiction will no longer issue or require a NC Commission to perform shop only inspections in ASME Code manufacturing facilities, or shop & field inspections for repairs/alterations in accordance with NBIC Part 3.**
- **A NC Commission is not required for the completion of ASME or National Board report forms. Inspectors who do not possess a valid NC Commission need only use their National Board Commission, endorsement(s) and number to complete these forms, and as required by ASME and/or the National Board.**
- **As always, any inspector performing in-service inspections must meet the requirements of our Statute and Rules and be in possession of a valid NC Commission.**

**DON KINNEY
CHIEF INSPECTOR**
