COMMENTS:

- Note 1: This report must be submitted to the Boiler Safety Bureau no less than ten (10) days prior to operation.
- Note 2: Exemptions listed in G.S. 95-69.10(b) include, but are not limited to (1) private residences and apartments of less than 6 families and (2) hot water supply boilers and potable water heaters not exceeding 200,000 BTUs input or 120 gallon storage capacity. Hydronic heating boilers are not excluded.
- Note 3: Indicate object size by pounds steam/hr, Btu/hr, Kw/hr, boiler horse power, gallons storage capacity, cubic feet storage capacity, or diameter X length.
- Note 4: If this object is used, do not use this form. Please submit a "Used boiler/pressure vessel installation request" from our "Forms" tab.
