CFR Revision 105A

Subject: Welding, Cutting and Brazing; Technical Amendment

Discussion:

On 20 June 1990, Federal OSHA promulgated technical amendments to the General Industry Standards at 55 *FR* 25093 that the 11 April 1990 "Redesignation and Other Non-Substantive Revisions" made to the Welding, Cutting and Brazing standards at 55 *FR* 13694. Three (3) references to the general industry welding, cutting and brazing standards, which are found in the general industry standards, were not corrected in the 11 April 1990 final rule. This action serves to amend those references so they refer to the proper provisions of the revised OSHA general industry welding, cutting and brazing standards. The references are:

<u>Source Item</u>	<u>Current Reference</u>	<u>Revised Reference</u>
A. 29 CFR 1910.110(i)(2)(iii)	29 CFR 1910.252	29 CFR 1910.253
B. 29 CFR 1910.272(f)(2)	29 CFR 1910.252(d)	29 CFR 1910.252(a)
C. 29 CFR 1910.272 Appendix A	29 CFR 1910.252(d)	29 CFR 1910.252(a)

Action:

This federal final rule amending the General Industry Standards has been adopted verbatim by the Commissioner of Labor with an effective date of 1 August, 1990. A copy of the [*Federal Register*](#) announcement at 55 *FR* 25093 is attached. Please file this NC-CFR Revision, with the attachment, in Part I of your Field Information System.
