

NORTH CAROLINA DEPARTMENT OF LABOR  
DIVISION OF OCCUPATIONAL SAFETY AND HEALTH  
RALEIGH, NORTH CAROLINA

Chapter 7  
Subchapter 7C  
NC-OSH

CFR Revision 114A

Field Information System Part I  
Process Safety Management of Highly Hazardous Chemicals; Final Rule  
Administrative Stay

DISCUSSION:

On February 24, 1992, Federal OSHA promulgated a new occupational safety and health standard for General Industry. This new standard, Process Safety Management of Highly Hazardous Chemicals - 29 CFR 1910.119, became effective May 26, 1992.

In response to a joint petition filed by the Chemical Manufacturers Association (CMA), the American Petroleum Institute, and the National Petroleum Refiners Association (NPRA) and a petition filed by Union Carbide Chemicals and Plastics Company, Inc., federal OSHA has administratively stayed the following paragraphs of the Process Safety Management Standard until August 26, 1992: paragraph (f) - operating procedures; paragraph (h) - contractors; paragraph (j) - mechanical integrity; and paragraph (l) - management of change.

ACTION:

This administrative stay, which affects the compliance dates for the above paragraphs in the final rule at 29 CFR 1910 Subpart H was adopted by reference in North Carolina by the Commissioner of Labor with an effective date of June 22, 1992. A copy of the complete text from the [Federal Register](#) announcement (Vol. 57, No. 105) is attached.

Please file this NC CFR revision in Part I of your Field Information System.
