

NORTH CAROLINA DEPARTMENT OF LABOR  
DIVISION OF OCCUPATIONAL SAFETY AND HEALTH  
RALEIGH, NORTH CAROLINA

Chapter 7  
Subchapter 7F  
NC-OSH

CFR Revision 116B

Field Information System Part I  
Maritime and General Industry Standards;  
Construction

DISCUSSION:

On January 3, 1994, Federal OSHA promulgated a correction to the amendatory language of the final rule that incorporated applicable General Industry standards for toxic substances into the Occupational Safety and Health Standards for Shipyard Employment. In addition, OSHA redesignated the cadmium standard for construction employment into a different subpart. The redesignation merges it in with the newly created subpart that contains specific toxic substance standards for construction.

ACTION:

These amendments to 29 CFR 1915 and 1926 are adopted verbatim in North Carolina by Commissioner of Labor with an effective date of April 15, 1994. A copy of the regulatory text from the [Federal Register](#) announcement (Vol. 58, No. 143) is attached.

Please file this NC CFR revision in Part I of your Field Information System.
