**Raleigh, NC**

Chapter 7  
Subchapter 7F

CFR Revision 121B

Field Information System  
*Occupational Safety and Health Standards for Shipyard Employment*  
29 CFR 1915

**Final Rule, Technical Amendments**

**Discussion:**

On July 3, 2002, federal OSHA promulgated technical amendments to the final rule, 29 CFR 1915, “Occupational Safety and Health Standards for Shipyard Employment.” These standards contain a number of minor typographical, grammatical and other errors. This document corrects those errors, as well as several inaccurate cross-references. The cross references are being changed because the referenced section numbers have changed or have been removed as a result of prior revisions to the rule.

**Action:**

The N.C. Commissioner of Labor adopted the technical amendments to the federal *Occupational Safety and Health Standards for Shipyard Employment* standard verbatim. Refer to the July 3, 2002, Federal Register (Vol. 67 FR No. 128) for the details related to these requirements.
