

NORTH CAROLINA DEPARTMENT OF LABOR
DIVISION OF OCCUPATIONAL SAFETY AND HEALTH
RALEIGH, NORTH CAROLINA

Chapter 7
Subchapter 7F
NC-OSH

CFR Revision 128A

Field Information System Part I
Personal Protective Equipment
for General Industry;
Revisions and Corrections to Final Rule

DISCUSSION:

On July 1, 1994, federal OSHA issued additions and corrections to promulgated amendments to the occupational safety and health standards for General Industry. The additions and corrections to Subpart I - Personal Protective Equipment for General Industry, became effective July 5, 1994.

ACTION:

These corrections to the final rule at 29 CFR 1910 Subpart I were adopted verbatim in North Carolina by the Commissioner of Labor with an effective date of September 1, 1994. A copy of the regulatory text from the [Federal Register](#) announcement (Vol. 59, No. 126, pages 33910 - 33911) is attached. The amendments to the final rule add paragraph (g) to 1910.132, correct a typographical error in 1910.133, make a clarifying amendment to 1910.136, and explain that the new 1910.138 - *Hazards to Hands*, replaces the previous 1910.138 *Effective Dates*.

The new paragraph (g) explains that Paragraphs (d) *Hazard assessment and equipment selection* and (f) *Training* apply only to 1910.133, .135, .136, and .138; they do not apply to 1910.134 or 1910.137. A table in 1910.133 entitled "Filter Lenses for Protection Against Radiant Energy" is corrected in the column heading "Electric Size" to read "Electrode Size 1/32 in." In 1910.136 a) the phrase ". . .falling and rolling objects. . ." is amended to read ". . . falling or rolling objects."

Please file this NC CFR Revision in Part I of your Field Information System.
