Subchapter 7F

Field Information System

Standards Improvements for General Industry and Construction Standards

Medical Services and First Aid, 29 CFR 1910.151

**Final Rule, Corrections and Revisions**

**DISCUSSION:**

On June 18, 1998, federal OSHA promulgated a final rule that corrected or eliminated provisions from various standards ([63 FR 33449-33469](#)). These changes were made to correct out of date, duplicative, unnecessary, or inconsistent standards.

One of the changes concerns medical services and first aid (Ref: 29 CFR 1910.151). Paragraph (b) is amended by removing the requirement for the approval of first aid supplies by a consulting physician. In addition, a non-mandatory appendix on first aid kits is added.

**ACTION:**

The June 18, 1998, corrections and revisions (63 FR 33449-33469) were adopted verbatim with an effective date of October 8, 1998. The applicable portions of the referenced *Federal Register* are attached.
