Checklist and Report for Inspection of Moving Walks

GEN	ERAL NOTES:									
(a) S	ee ASME A17.2 for detailed Code requir	emer	nts. N	lumber	ing is ti	ed to the numbering on A17.2 sections	3.			
(b) O	K = Meets requirements NG = Insert r	numb	er to	identify	/ comm	ent on this checklist NA = Not Applic	able			
□ Routine Inspection and Test □ Periodic Inspec						ction and Test				
Addr	ess:									
ID No.:						Code Edition:(from Code Data Plate)				
						Inspected by:				
Width:inches/meters Speed:fpm or m/s				Signature:						
Angle (inclination): Certificate No:					Certifying Organization:					
		OK	NG	NA			ОК	NG	NA	
9	9 MOVING WALK – EXTERNAL					MOVING WALK – INTERNAL				
9.1	General fire protection				10.1	Machinery space access, lighting, receptacle and condition				
9.2	Geometry				10.2	Stop switches and inspection control				
9.3	Handrails				10.3	Controller and wiring				
9.4	Entrance and egress ends				10.4	Drive machine and brake				
9.5	Lighting				10.5	Speed governor				
9.6	Caution signs				10.6	Broken drive chain and disconnected				
9.7	Combplate and comb step impact device					motor safety device				
9.8	Deck barricades				10.7	Reversal stop switch				
9.9	Treadways				10.8	Broken treadway device				
9.10	Operating and safety devices				10.10	Missing pallet device				
9.13	Egress restriction (rolling shutter) device				10.11	Pallet level device				
	Speed				10.12	Pallet, pallet step chains and trusses				
9.15	Balustrades				10.13	Handrail systems and safety devices				
9.16	Ceiling intersection guards				10.14	Code data plate				
9.17	Skirt panels				10.15	Response to smoke detectors				
9.18	Outdoor protection				10.16	Inspection control				
9.19	MCP and maintenance records				10.17	· ·				
9.20	Earthquake inspection and tests (seismic risk zone 2 or greater)					(seismic risk zone 2 or greater)
