BUREAU CHIEF
ELEVATOR AND AMUSEMENT DEVICE BUREAU

DATE: March 28, 2017

MEMORANDUM TO: Aerial tramway/ski lift owners

FROM: 
Thomas M. Chambers
Bureau Chief

RE: Inspection scheduling requirements

Please be advised that effective September of 2017, owners will be required to schedule lift and related equipment inspection no later than October of each year. This requirement is needed to better serve our industry customers. Owners should make provisions to have permanent power on, equipment operational, and be ready for the annual inspection. If you have a 7 year full load test due in 2017, you need to schedule them between now and your inspection. We will not have time for you to perform these tests during inspection of your equipment.

We appreciate your cooperation in assisting us with this. If you have questions please contact your local inspector.
