ELEVATOR AND AMUSEMENT DEVICE BUREAU

DATE: January 25, 2019

MEMORANDUM TO: Amusement Companies and Parks

FROM:   
Thomas M. Chambers  
Bureau Chief

RE: Chance and Allan Herschell Merry-Go-Rounds

All Chance and Allan Herschell Merry-Go-Rounds or Carousels must have the center pole NDT tested before operation in North Carolina in 2019. All NDT paperwork needs to be emailed to Tommy Petty at [tommy.petty@labor.nc.gov](mailto:tommy.petty@labor.nc.gov). The area where the bevel gear mounts needs to be magnetic particle tested. The other part of the center pole can be visually tested by an NDT company. See the attached pictures for the area of concern. If you have any questions or comments, contact Tommy Petty at 919-868-1117.
